Why Choose Us

At Urban Concrete Floors, we pride ourselves on offering a wide variety of high-quality, seamless, and contemporary finishes for commercial, residential and industrial projects.

Choosing a professional contractor you can rely on is crucial, especially during the stressful times of building, renovating, or working to a construction schedule.

Experts in Concrete Finishes

With over 13 years of experience, Urban Floors specializes in industrial concrete coatings, using high-quality products and staying abreast of new technologies.

Our flooring experts can cut through the 'misinformation' and guide you to the most fit-for-purpose finish for your concrete flooring project, ensuring you make the best decision for your business.

Experienced Installers

Our flooring finishes take months to learn and years to master. Most of our decorative finishes are hand-trowelled, and our team members have become true craftsmen in the field. We continually research new products and technologies, creating new finishes to ensure they meet our stringent criteria for suitability, durability, and design. To become an installer at Urban Floors requires extensive training and, for some products, accreditation.

Our expertise in creating bespoke residential finishes naturally extended to mastering commercial and industrial coatings. We provide fit-for-purpose flooring solutions in warehouses and factories across Victoria.

Commercial Decorative Flooring Solutions

At Urban Concrete Floors, we specialize in providing high-quality concrete flooring finishes tailored to the commercial sector. No matter the finish or application your project requires, we can usually provide a solution that meets your needs.

Whether your project calls for a hand-crafted, contemporary, seamless floor for a retail or office space, or a more robust option for a commercial kitchen, we offer finishes that are fit for purpose, transforming your space into a functional and aesthetically pleasing environment.

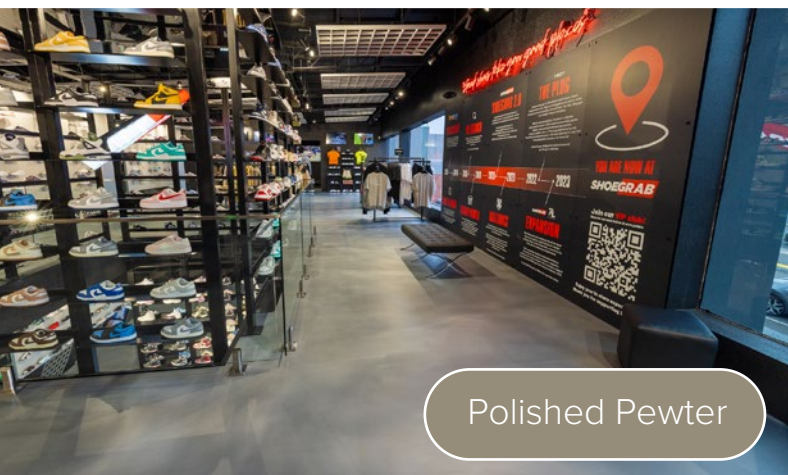

If you seek something truly special for your commercial space—such as a restaurant, showroom, high-end retail store, or educational environment—our seamless, bespoke, commercial concrete finishes are designed to impress. The first step is discussing your project and understanding what you intend to achieve.

Decorative Overlays

We offer decorative overlays which are perfect for retail, showrooms and office spaces or educational facilities. If your project requires a more robust finish, we move into our more heavy duty commercial range.

We Service:

-  Restaurants and Cafes
-  Retail
-  Showrooms
-  Office Spaces
-  Educational Facilities
-  Other Commercial Spaces

Pietra

Commercial & Industrial Heavy Duty Flooring Solutions

In today's fast-paced world, the information surrounding epoxy flooring, concrete coatings, and resurfacing for industrial applications can be varied and often misleading.

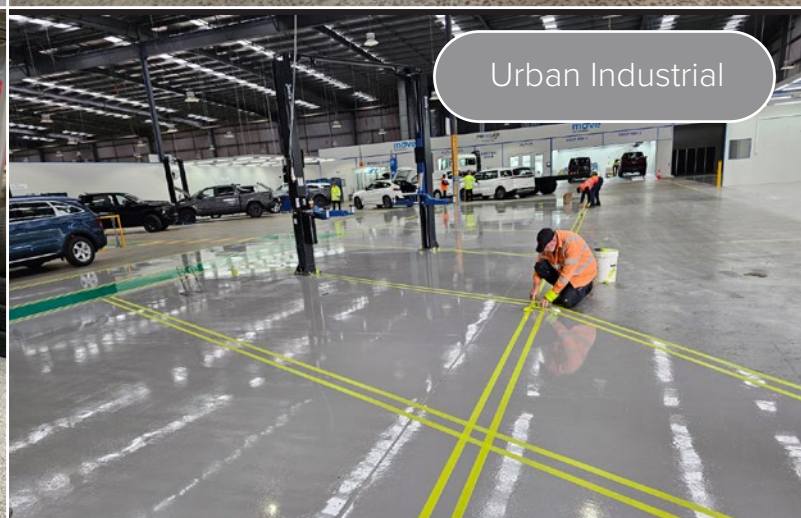

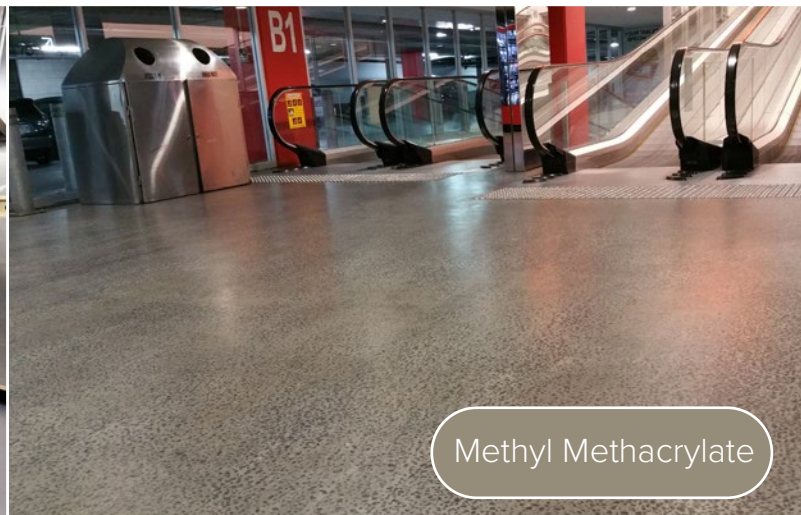

Choosing the right flooring solution for your warehouse, manufacturing facility, or factory floor is crucial.

Our Expertise:

- Industrial epoxy concrete coatings
- Polyurethane cement
- Methyl Methacrylate flooring systems
- Coving
- Polyaspartic flake systems

We offer a range of seamless commercial and industrial flooring finishes, including:

- Polyurethane (PU) Cement:** Ideal for commercial kitchens and environments requiring extreme durability.
- A range of commercial epoxies:** Perfect for high-traffic areas in fast food restaurants, factories and warehouses.
- Flake/Polyaspartic Flooring System:** Cutting edge technology and the most fit for purpose for garages and workshops.

Residential Decorative Overlays

Why Choose Residential Decorative Finishes? 'Polished Pewter' Finish

The increasing trend toward decorative concrete floors offers a multitude of options in seamless, contemporary finishes. At Urban Concrete Floors, you can select from a unique range of handcrafted decorative epoxy, polyurethane blends, or cementitious overlays for a more modern and understated look. We offer, Polished Pewter, Pietra, Microcemento, Urban Murano and Stonehenge finishes.

Since 2011, we've been creating bespoke decorative overlays in homes, with our trained artisans specialising in this space. Your flooring finish serves as the focal point of your home décor, transforming your space and leaving a lasting impression. Each of our finishes are completely unique in each installation. We create our finishes on site, and hand-apply most finishes directly over substrates of concrete, timber, and even tiles to create a seamless look.

Our 'Polished Pewter' finish offers a luxe, polished concrete look with a unique blend of tinted epoxies, cementitious polymers, and polyurethane. Created through 19 meticulous processes by our artisans, it results in a translucent mix of warm and cool greys. This finish is seamless, slightly warmer than tiles, and can be applied over various surfaces, available in gloss or satin.

'Microcemento' Range

Discover the durability and elegance of our 'Microcemento' finish. Hand-trowelled to mimic natural stone, this 4-5mm thick overlay is strong, long-lasting, and perfect for both indoor and outdoor spaces. Add timeless charm to your space with Microcemento.

'Pietra' Range

The Pietra finish is a cement-based overlay that gives a stone-like look and feel. Applied by our skilled artisans, each floor is unique, with a modern, understated design in neutral colors. It's durable, customizable, and finished with a smooth satin sheen.

Urban Stone

Why Choose Urban Stone Epoxy/Flake Finishes?

Unmatched Durability Our Urban Stone finish is manufactured on-site and features a 3-coat, 10+ step system using cutting-edge technology. The **high-quality polyaspartic** that we use in the top layer is tough, impervious, **UV-resistant**, and offers excellent adhesion and toughness, making our finishes vastly superior to most other flake floors.

Superior Materials and Workmanship

Polyaspartic, is a more challenging and expensive material to use than epoxy and forms the backbone of our top layer. We leverage our extensive experience and bulk purchasing power to provide this superior material at competitive prices. This ensures that our floors not only look fantastic but also stand the test of time.

Our multi-coloured seamless flake flooring system is a very popular, durable and decorative finish for a variety of spaces including but not limited to;

- 🔧 Polyurethane cement
- 🔧 Methyl Methacrylate flooring systems
- 🔧 Coving
- 🔧 Polyaspartic flake systems

Key Benefits of the Urban Stone finish

- 🔧 **Prep Work Included:** We patch existing cracks, minor holes, and saw cuts.
- 🔧 **Highest Quality Materials:** Sourced from trusted suppliers for their quality and durability.
- 🔧 **Thickest Flake Floor:** At 2mm for maximum durability.
- 🔧 **Impact Resistance:** Enhanced by the significant thickness.
- 🔧 **Petrochemical and Oil Resistance:** Protects against common garage and workshop spills.
- 🔧 **Tyre Stain Resistance:** Keeps your floor looking pristine.
- 🔧 **Easy to Clean:** Can be hosed, pressure-washed, vacuumed, and mopped.
- 🔧 **Conceals Dirt and Debris:** The flake design naturally hides imperfections.
- 🔧 **Slip Resistance:** Ensures safety in high-traffic areas.
- 🔧 **Crack and Peel Resistance:** Maintains its integrity over time.
